

## ADVANCING WOMEN'S ESCR: ALTERNATIVE VISIONS OF DEVELOPMENT, LAND AND PROPERTY RIGHTS

### INTERNATIONAL STRATEGY MEETING

#### AGENDA OF THE MEETING

*Montevideo, Uruguay, 26-28 August 2015*

**The Steering Committee of this meeting is integrated by:** Arab NGO Network for Development (ANND); Asia Pacific Forum on Women, Law and Development (APWLD); Global Initiative for ESCR; FIAN International; Heisoo Shin – Member of UN CESCR Committee ; JASS Associates; Legal Resource Centre- South Africa; National Fisheries Solidarity Organization (NAFSO)- Sri-Lanka; Ogiek Peoples' Development Program- Kenya.

**This agenda** is built on a preliminary analysis of member surveys on current HLP-related work, strategic discussions during the first two regional workshops on OP-CEDAW/OP-ICESCR, and in other spaces throughout the past year, as well as based on the experiences of the WG members during the course of their work. In general, this has led to looking at HLP issues through two primary lenses, which might ultimately inform collective advocacy:

1. the maintenance of inequality and patriarchy in access to land, inheritance, control of resources, etc. via gender norms, customary law, and gender-based violence, often at the community or family level; and
2. the gendered impacts of natural resource extraction, development-induced displacement, land grabbing, and related economic policies.

Cross-cutting these two themes is the ongoing development and implementation of human rights standards and mechanisms, which can be important tools in working towards substantive equality and the full realization of women's human rights.

#### DAY 1

Wednesday 26 August	
9:00-9:15	<b>Registration</b>
